

Nazmul Ahasan

Senior Engineering Manager, Platform Engineering | Cloud, DevOps, DevSecOps, SRE | FinTech & HealthTech

Dhaka, Bangladesh · +880 152 149 2866 · rejve.aust@gmail.com · linkedin.com/in/nrejve · github.com/nrejve · nazmul-ahasan.pro.bd

Open to roles in Malaysia, and worldwide with visa sponsorship / relocation support.

SUMMARY

Platform engineering leader with 8+ years across HealthTech and FinTech. Leads DevOps, SRE and DevSecOps teams; building a distributed team across Malaysia, UAE, UK and Sri Lanka. The teams run multi-cloud (AWS, GCP, Azure) infrastructure for FinTech trading platforms.

EXPERIENCE

Senior Engineering Manager (Platform Engineering), NEXT Ventures Oct 2024 – present

- Leads DevSecOps, SRE and Database Reliability teams for FundedNext and FNmarkets.
- 99.99% uptime.
- Deploy time cut from 40 to 10 minutes.
- Cloud spend cut by 65%.
- 5x deployment frequency through GitOps and IaC.

Senior DevOps Engineer, Brain Station 23 2022 – 2024

- Modernized infrastructure for 5+ international clients and migrated a monolith to microservices.
- Deployment failures down 30%, deployment time down 75%.

System Administrator II, Therap Services 2018 – 2022

- HIPAA-compliant EHR infrastructure at 99.99% uptime.
- RTO/RPO cut by 50%.

SELECTED WINS

- **“Help Me Choose My Plan”**: AI plan-recommendation wizard taken from MVP to production and live on FundedNext; about \$1M/month of plan purchases flow through it.
- **OpsFlow**: completed the Forward Deployed Engineer (FDE) challenge by solo-building an internal ops/ERP portal in 2 of 3 working days, used by ~700 employees.
- **System Health Dashboard**: solo-built a self-service status dashboard for the support team; support questions to engineering dropped by about 80% (estimate).
- **Real-time API alerting**: alerting on critical APIs that catches incidents before customers report them.
- **Affiliate Portal**: led the architecture, deployment security and CI/CD.
- **Observability**: self-hosted SigNoz/OpenTelemetry observability, chosen over a commercial APM.
- **S3 migration**: zero-failure large-scale migration to S3.

SKILLS

AWS, GCP, Azure, Kubernetes (EKS/GKE), Terraform, Ansible, ArgoCD/GitOps, GitHub Actions, GitLab CI, Docker, Helm, Cloudflare (WAF, Workers, Zero Trust), OpenTelemetry, SigNoz, Prometheus, Grafana, Next.js, PostgreSQL, Python, FinOps, DevSecOps, incident command, team leadership and hiring.

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA): in progress

Earlier certifications

- Red Hat Certified System Administrator (RHCSA)
- Red Hat Certified Engineer (RHCE)
- AWS Certified Solutions Architect – Associate

EDUCATION

B.Sc. Computer Science and Engineering, AUST, 2018 · Languages: Bengali, English
